TWO STEPS FORWARD - MORE THAN YOU

Single - 1/9/26

Genre - Metal

www.instagram.com/twostepsforwardaus

Take a step back into the early 2000s with Two Steps Forwards new single "More Than You". Big riffs and larger than life vocals, this song grabs you with its heavy sound and keeps you around with the melodic verses. I'm a huge fan of crazy heavy all the time but it is also really nice to have some contrast within the same song, it makes the heavy parts hit harder and it gives the band a chance to show off that they're not just a one trick pony, and that they can write beautiful melodies as well and crushing riffs. And that scream towards the end... Perfect!

This is Two Steps Forwards second single, their first being "Daybreak (You Know It Hurts)" earlier this year. I loved their first release but this new one takes everything they did and steps it up to the next level. I can't wait to hear a full length album from these guys.

What an absolutely killer track from a killer band, if you're a fan of that 2000's metal sound you won't be disappointed with this one. These guys are always out and about playing locally so head down and show them some love. Go out and wrap your ears around this one, you won't regret it.

THE F JAYS - JUICER

Album - 5/9/26

Genre - Funk

thefjays.bandcamp.com

This album is the perfect soundtrack for any day of the week. Slow morning? Chuck on The F Jays. Cooking dinner? Get some of that funk into your food. Gardening? Pull those weeds with style with The F Jays debut album "Juicer". For a band that has so many members it is really great to hear that throughout the album there are places for each member to shine, whether it be funky bass solo or a next level sax solo, each instrument is given a chance to break out and show us what they are really capable of.

This 11 track album of soul and funk is a fantastic debut, there is not a single dud amongst the lot which is quite a tricky thing to do especially for a first album. Last month they released "Out To Sea" as a single and I don't know whether it's just because I've listened to it more or because it has lyrics but this is the stand out track to me, the group vocals just work so well. It was a long wait but it was well worth it, "Juicer" is a stand out album and one I've found myself chucking at least once a day. If you haven't heard it yet, what are you doing? Hopefully we don't have to wait as long for The F Jays to give us some more gold, but if we do it'll be worth it. Luckily they are just as good live as they are recorded so if you're feeling the itch go find them out and about.

BAD DEBTS - PIECE OF MIND

Single - 15/9/26

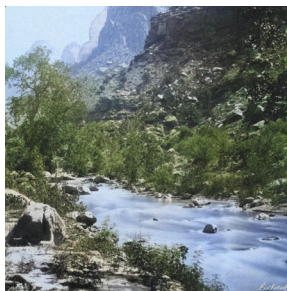

Genre - Alt-Country

baddebts.bandcamp.com

Are you sick of over produced, sterile country music? Do you want something with a bit of bite? Well boy have Bad Debts got the song for you. "Piece Of Mind" is their latest single, it's raw and gritty just the way the Alt-Country should be.

This is the second single from their upcoming second album "Half Light", coming out in November. This is a great follow up to the first single "Some Salvation". "Piece Of Mind" is a lot more gritty then the first single so if you want something a little less in your face that'd be the go.

This isn't a genre I usually listen to but I'm a huge fan of this track. I think it's the vocals that grab my attention, I love the rasp and emotion you can hear in them, and when the chorus kicks in with all the instruments filling it out, and the singing becomes more of a shout, it just scratches an itch in my brain. Don't let a preconceived idea of a genre deprive you of good music, check this one out you won't regret it.

CLEVER COMPANION - BUCKETED

Single - 18/9/26

Genre - Fun?

clevercompanion.bandcamp.com

Are you looking for a fun boppy song with a jovial melody? Do you still want a sense of bleakness? Well lucky for you Clever Companion's new single "Bucketed" fits the criteria! Doubly so if you're a fan of westerns as this song is chocka block full of references.

This is Clever Companion's second single after "Tomahawk", off their new album "The Hills, Nigh The Canyon" which comes out October 9. I'm wondering if this new album will be a concept album like their first album "The Pedlar" was, as "Tomahawk" obviously from the name explores themes from the wild west as well.

There are so many fun elements to this song it's hard to touch on them all. The catchy melody, the great piano, and the lyrics that are really worth pouring through. I had a lot of fun with this track, I can't pick out why but it really reminds me a lot of "The Butterfly Ball And The Grasshopper's Feast", which is up there for one of my favourite albums. I'm super keen to check out the full album when it drops, and I reckon you should too. In the meantime chuck on this single and give it a spin.
